JOB EXPOSURE CLASSIFICATION RECORD OF EMPLOYEE

The following employee was classified according to work task exposure to certain body fluids as required by the OSHA Bloodborne Standard.

Employee Name: _____

Exposure Determination Categories (Select One):

☐ **Category 1: All Employees Have Exposure**

- **Job Titles:** Physicians, nurses, medical assistants, surgical techs, histotechs.
- **Criteria:** Daily routine inherently involves potential contact with blood, body fluids, or tissues.

☐ **Category 2: Some Employees Have Exposure**

- **Job Titles:** Medical receptionists, cleaning staff, maintenance workers.
- **Criteria:** Normal routine has no exposure, but specific tasks (like handling regulated waste or cleaning spills) may be required.

☐ **Category 3: No Occupational Exposure**

- **Job Titles:** Billing staff, off-site administrative personnel.
- **Criteria:** Duties do not involve any exposure or emergency first-aid response expectations.
